

Independent Assurance Statement

DNV

Introduction

DNV Business Assurance India Private Limited ('DNV'), has been commissioned by Syngene International Limited ('Syngene' or 'the Company', Corporate Identity Number (CIN) L85110KA1993PLC014937), hereafter referred to as "Syngene" or "the company" to undertake an independent assurance of the Company's ESG Report 2022-23 in its printed format ('the Report') for the financial year ending 31st March 2023. The sustainability disclosures in this Report have been prepared by Syngene based on the material topics identified by them in reference with the Global Reporting Initiative (GRI) Sustainability Reporting Standards 2021 ('GRI Standards'). The intended user of this assurance statement is the Management of Syngene ('the Management'). Our assurance engagement was planned and carried out during the period October 2023 – January 2024.

Responsibilities of the Management of Syngene and of the Assurance Provider

The Management of the Company has the sole responsibility for the preparation of the Report and are responsible for all information disclosed in the Report as well as the processes for collecting, analyzing and reporting the information presented in the Report. Syngene is also responsible for ensuring the maintenance and integrity of its website and any referenced disclosures on sustainability performance. In performing this assurance work, DNV's responsibility is to the Management of the Company; however, this statement represents our independent opinion and is intended to inform the outcome of the assurance to the stakeholders of Syngene.

We provide a range of other services to the Company, none of which in our opinion, constitute a conflict of interest with this assurance work. Our assurance engagements are based on the assumption that the data and information provided by the Company to us as part of our review have been provided in good faith and are free from misstatements.

Scope, Boundary and Limitations

The reporting scope and boundary encompasses environmental, social and governance performance of Syngene operations as brought out in the section 'About the Report' of the report for the activities undertaken by the Company during the financial year 1st April 2022 – 31st March 2023.

We performed a limited level of assurance based on our assurance methodology VeriSustain^{TM1}. The assurance engagement considers an uncertainty of $\pm 5\%$ based on materiality threshold for estimation/measurement errors and omissions. We did not engage with any external stakeholders as part of this assurance engagement.

During the assurance process, we did not come across limitations to the scope of the agreed assurance engagement. The reported data on economic performance, expenditure towards Corporate Social Responsibility (CSR) activities, and other financial data are based on audited financial statements issued by the Company's statutory auditors which is subject to a separate audit process. We were not involved in the review of financial information within the Report.

Basis of our Opinion

As part of the assurance process, a multi-disciplinary team of sustainability specialists performed assurance work for selected sample sites of Syngene. We adopted a risk-based approach, that is, we concentrated our assurance efforts on the issues of high material relevance to the Company's business and its key stakeholders. We carried out the following activities:

- Reviewed the approach to stakeholder engagement and materiality determination process and its outcomes as brought out in the Report.
- Interviews with selected senior managers responsible for management of sustainability issues and review of selected evidence to support topics disclosed in the Report. We were free to choose interviewees and interviewed those with overall responsibility to deliver the Company's sustainability objectives.

¹ The VeriSustain protocol is based on the principles of various assurance standards including International Standard on Assurance Engagements 3000 (ISAE 3000) Revised (Assurance Engagements other than Audits or Reviews of Historical Financial Information) and the GRI Principles for Defining Report Content and Quality, international best practices in verification and our professional experience; and is available on request from www.dnv.com

DNV

- Sample based assessment of site-level sustainability performance data through on-site audits of its operations at Biocon Park and Velankani Tech Park, both located at Bengaluru to review processes and systems for preparing the data and implementation of sustainability strategy. We were free to choose sites for conducting our assessment.
- Reviewed the process of reporting on Organizational Profile, Strategy, Ethics and Integrity, Governance, Stakeholder Engagement and Reporting Practices based on GRI 2: General Disclosures 2021.
- Reviewed the performance disclosure of identified material topics and related GRI Standards; that is, carried out an assessment of the processes for gathering and consolidating performance data related to identified material topics and, for a sample, checked the processes of data consolidation to assess the Reliability and Accuracy of performance disclosures reported based on GRI's topic-specific Standards.
- Verification of the data consolidation of reported performance disclosures in context to the Principle of Completeness as per VeriSustain for a limited level of verification.

Opinion

On the basis of the verification undertaken, nothing has come to our attention to suggest that the Report does not properly adherence to the GRI Standards 2021, including GRI 2: General Disclosures 2021, GRI 3-3: Management of Material topics and disclosures related to the following GRI Standards which have been chosen by Syngene to bring out its performance against a set of identified material topics:

² Syngene has disclosed Scope 3 emissions under 8 categories out of 15 categories (as listed in the GHG protocol).

Observations

Without affecting our assurance opinion, we provide the following observations against the principles of VeriSustain:

Materiality

The process of determining the issues that is most relevant to an organization and its stakeholders.

The Report explains out the materiality assessment process carried out by the Company which has considered concerns of internal and external stakeholders, and inputs from peers and the industry, as well as issues of relevance in terms of impact for Syngene's business. The list of topics have been prioritized, reviewed and validated, and The Company has indicated that there is no significant change in material topics from the previous reporting period.

Nothing has come to our attention to suggest that the Report does not meet the requirements related to the Principle of Materiality.

Project No: PRJN-649169

**Stakeholder Inclusiveness**

The participation of stakeholders in developing and achieving an accountable and strategic response to Sustainability.

The Report brings out the stakeholders who have been identified as significant to Syngene, as well as the modes of engagement established by the Company to interact with these stakeholder groups. The key topics of concern and needs of each stakeholder group which have been identified through these channels of engagement are further brought out in the Report.

Nothing has come to our attention to suggest that the Report does not meet the requirements related to the Principle of Stakeholder Inclusiveness.

Responsiveness

The extent to which an organization responds to stakeholder issues.

The Report articulates the Company's responses to the stakeholder engagement processes carried out by the Company, as well as the approaches and performance related to identified material topics through GRI topic-specific Standards. The Company has further linked its material topics to its overall strategies, management approach and goal setting processes, as well as future challenges of the healthcare business.

Nothing has come to our attention to believe that the Report does not meet the requirements related to the Principle of Responsiveness.

Reliability

The accuracy and comparability of information presented in the report, as well as the quality of underlying data management systems.

The Report brings out Syngene's sustainability performance related to its identified material matters using selected GRI topic-specific Standards. The majority of the data and information verified through our assessments at sampled operational sites and aggregated at the corporate level were found to be fairly accurate and reliable. Some of the data inaccuracies identified during the verification process were found to be attributable to transcription, interpretation and aggregation errors and these errors have been identified, communicated and corrected.

Nothing has come to our attention to believe that the Report does not meet the principle of Reliability and Accuracy.

Completeness

How much of all the information that has been identified as material to the organisation and its stakeholders is reported?

The Report brings out the Company's performance, strategies and approaches related to the environmental, social and governance issues that it has identified as material for its operational locations coming under the boundary of the report, for the chosen reporting period while applying and considering the requirements of the GRI's Principle of Completeness.

Nothing has come to our attention to suggest that the Report does not meet the Principle of Completeness with respect to scope, boundary and time.

Neutrality

The extent to which a report provides a balanced account of an organization's performance, delivered in a neutral tone.

The Report presents Syngene's performance during the reporting period in a neutral manner so as to not unduly influence stakeholder opinions made on reported data and information, which includes descriptions of significant challenges and concerns related to stakeholders and business sectors, and overall macroeconomic environment and business outlook.

Nothing has come to our attention to suggest that the Report does not meet the requirements related to the Principle of Neutrality.

Statement of Competence and Independence
